

Change One Thing!

As part of Our Global World focus and linking with our Eco agenda, we are encouraging our school population to think about how we can as individuals make a small change that makes a big difference to the future of our planet.

Outcomes & Experiences:

Technological Developments in Society

- Within and beyond my place of learning, I can reduce, re-use and recycle resources I use, to help care for the environment. **TCH 0-02a**
- Throughout all my learning, I take appropriate action to ensure conservation of materials and resources, considering the impact of my actions on the environment. **TCH 1- 02a**
- Having analysed how lifestyle can impact on the environment and Earth's resources, I can make suggestions about how to live in a more sustainable way. **TCH 2-02a**

Art and Design

- I have the opportunity to choose and explore a range of media and technologies to create images and objects, discovering their effects and suitability for specific tasks. **EXA 1-02a**

WHOLE SCHOOL CHALLENGE

THE CHALLENGE

Make a pledge to do something small and sustainable that can make a big change to our world. This should be something that is realistic and that you can do on a regular basis - not as a one off for this task! By making a pledge, you are making a commitment to the future of our planet through responsible choices and actions.

HOW TO DO THIS

- You can decide what change you want to make, e.g. walk more to school, waste less food, turn off the tap instead of letting it run when you brush your teeth - the list is endless.
- Take a photograph of yourself doing something to waste less. This should be no bigger than A5. Write your name, class and pledge on the back of the photo.

TIMESCALE

- You will be given this task as a 2 week homework task. This will give you time to decide what you are going to commit yourself to doing. **Your photos should be given to your class teacher by Monday 13th May 2019.**
- Once all photos are in, we will create an exhibition for our pupils and their families to come and visit on **Friday 24th May 2019 from 2.15pm.** This will help to remind us just what can do to help save the future of our world
