

P2M Our Easter Stories

My Easter Holidays

We did an Easter egg hunt. It made me happy. We went to the field a lot. I miss my friends. It was my birthday but we couldn't go anywhere. I can't wait for it to be back to normal.

My Easter Holidays

In the holidays I baked brownies. I miss my cousins Sophie and Joshua but I FaceTime every day. I did a puzzle of the world.

My Easter Holidays

My Easter holidays were in the middle between good and bad because I could not go to the Beach Leisure Centre. I enjoyed hugging Nathan and Papa the most. I felt happy most of the time because the weather was good.

By Nathan

My Easter Holidays

For my Easter holidays I learned to ride my bike without stabilisers. I couldn't believe it! We also baked yummy cakes and we gave one to our Granny and Grandad. I am sad because of the Coronavirus and I really miss going to school. I am happy that my friends and teachers are safe. By Anna

My Easter Holidays

In the Easter holidays I learned to ride my bike. I was happy. Me and Ben went outside in the garden with the sprinkler. We had lots of fun. My Dad taught me how to play 'Mary had a little Lamb' on the keyboard! This holiday was different because I couldn't go anywhere.

My Easter Holidays

The holidays have been different because I usually go to swimming and do outdoor activities. Instead I went into the back garden and also played tennis in the street. It feels strange having to spend most of the time indoors. By Rory

My Easter Holidays

This holiday was very different as we were on lockdown due to the virus. Normally we would have been away to visit our family in Edinburgh. I enjoyed spending more time with my family in the house. It was fun. We had a picnic. I made lollies. We did an Easter egg hunt. It was fun. Every day I went on my bike for my breath of fresh air. I felt happy and safe but sad that I can't see my friends. My Easter Holidays

Over the Easter holiday I had an Easter egg hunt. It was so fun. I ate an Easter egg. It was a chocolate egg so it was edible. I loved it. I also helped my Mum and Dad to set up a trampoline. I also went out for walks more often and run-jogs.

My Easter Holidays

This year I didn't go anywhere for my holidays as everyone had to stay at home due to Covid 19. So here's what I got up to. I went for a cycle through the neighbourhood and I played football with my Dad and I played tennis with my Mum.

My Easter Holidays

For my Easter holiday I only got out for one walk a day. I enjoyed playing with my football in the sun. I missed seeing my family and friends. I liked eating all my Easter treats.

My Easter Holidays

In the Easter holidays I was supposed to go to the caravan but I couldn't because of Coronavirus. I went out on my scooter every day. It made me feel happy. And I also got to play Minecraft on Saturday and Sunday and one week day. It made me feel excited because I can build stuff. On Easter Sunday I made a box and I put treats for the Easter Bunny in it but instead he made a trail with them to where the Easter eggs were. It made me feel surprised.

MINECRAFT

The image shows the title screen of the game Minecraft. The word "MINECRAFT" is written in a large, grey, blocky font with a black outline and a slight 3D effect. The background is a pixelated landscape featuring a blue body of water in the foreground, a sandy beach, and a forest of green trees and brown mountains in the distance under a blue sky with light clouds.

My Easter Holidays

On Sunday we had a party with us because it was my Mum's 38th birthday. We had a BBQ and the biggest cake! Mum made us an Easter egg hunt. There were lots of eggs on the hunt. We got an Easter Bunny teddy. We had a home cinema and watched Trolls World Tour. It was FAB! By Brodie T

WORLD TOUR

My Easter Holidays

This year I didn't go anywhere for my Easter holidays as everyone had to stay home due to Coronavirus. Here's what I got up to...

I went outside for walks with my family. We looked for sticks and threw them into the water. I played in the garden with my family. We made an obstacle course in the garden. I played with my Mummy and brother. We played games and baked apple sponge. Me and my Mummy were packing boxes to move house. I was sad that I didn't go on holiday with my Granny and Grandad and Uncle Richard but I still had fun. I am happy and excited to move house.
