Welcome!

Welcome to the **Safer Schools App** provided via Zurich Municipal.

Safeguarding children and young people is one of the most important issues facing parents, carers and those responsible for educating and empowering children and young people.

Safeguarding across the school community has become even more complex in the context of children's access to technology and use of social media.

That is why we have developed the Safer Schools App.

The Safer Schools App is designed for staff, parents/carers and pupils. It helps support and protect children by educating and empowering them at school and at home. Staff, parents/carers and pupils receive tailored content specific to their role. Pupils also receive different content depending on their year group.

Age appropriate story for younger learners to understand why and how to start making safe choices online

Passwords - Safer Schools

**SAFER SCHOOLS**

Jack's Password   ›

Passwords

Jack's Password is a short video story which helps explain the importance of passwords to younger children.

Jack was so excited, he'd been waiting AGES for his very own iPad and he finally got one for his birthday.

Accessing the Safer Schools App

1. Go to the app store and search for safer schools.
2. Download the app

To open the app

Start typing in the school name: Hazlehead School

Parent code: 7440

Pupil code: 3137

Safer Schools Roll out

Staff should explore the app and select relevant sections for teaching.

Parent council will be shown how the app works.

The parents will be given information about accessing the app.
